Jacob Blake's life has forever been changed and his kids witnessed violence no kid should ever see, experienced trauma no kid should ever endure, all while the world watched. Tuesday's decision is evidence our work is not done.

MADISON — Gov. Tony Evers released the following statement on Tuesday regarding the charging decision made in the officer-involved shooting of Jacob Blake on Aug. 23, 2020.

“Over the past year, our state and country have witnessed a movement—one that echoes hundreds of years of movements that have come before it, demanding justice, equity, and peace for Black lives. What is just as clear today as it has been is we have failed to deliver on these promises, both as a state and as a country.
