Wisconsin Healthcare Advocacy Group Calls for Universal Affordable Coverage to Finish the Job

Milwaukee: – On the 13th anniversary of the Affordable Care Act becoming law, on behalf of our members across the state, Citizen Action of Wisconsin celebrates the record enrollment and lowered costs gained through the Inflation Reduction Act, and calling on Congress to finish the job to everyone has access to affordable coverage:

After 13 years of non-stop attacks and sabotage from opponents, the Affordable Care Act has not only survived but thrived, [hitting record enrollment](#) in 2023 by providing quality, affordable coverage to over 221,128 Wisconsin State Residents and improving coverage for over 100 million Americans nationwide. Both the ACA and Medicaid were invaluable tools throughout the COVID-19 pandemic, ensuring individuals could get affordable coverage when they needed it most. But it shouldn't take an emergency to make healthcare affordable and accessible to millions more people: Congress has the power to make permanent the increased affordability provisions and Medicaid improvements that have brought the number of uninsured people to record lows over the last year.
