***Announcing March Forth to Earth Day in cities and towns all across Wisconsin, local action started on March 4th and continuing each and every Friday through Earth Day.***

---

MADISON - We started this on March 4th. Now we are continuing EACH FRIDAY through Earth Day, April 22nd. Communities across Wisconsin will hold simultaneous climate justice assemblies of solidarity with the Indigenous-led movement to stop Line 5 and other threats to Mother Earth. To date, there are over 19 communities participating in this project - some at noon, some at 5:00 p.m. Their safely distanced outdoor public assemblies are as unique as the communities holding them.

All of the gatherings will attempt to connect to virtual gatherings that will also be streamed to Facebook at <https://www.facebook.com/marchforthtoearthdayproject> :
