Having a discussion about moral injury and how we treat PTSD in veterans can only improve our policy decisions.

Madison – ***Almost Sunrise***, a feature length documentary film featuring two Wisconsin Veterans from Milwaukee, will be screened in the Wisconsin State Capitol Monday, April 24th at 2pm in room 411 South.

Following the screening Anthony Anderson, featured in the film, will discuss the movie and answer questions. Invited are members of the Legislature, Legislative Service agencies, staff, media, local veterans and the public.

“Our veteran communities deserve every opportunity to succeed and a fair Legislature examines how we can get there. I am honored to be able to host a screening of this important film. As we look for more creative ways to support veterans in our communities, the work of this film and the Veterans Trek helps us explore what works. Having a discussion about moral injury and how we treat PTSD in veterans can only improve our policy decisions,” said Senator **Jon Erpenbach** (D-Middleton).
