---

DE PERE, WI - On Friday, August 28, 2015, our incoming freshmen will join together for "Into the Streets" and will be available to serve our community in the afternoon.

As part of St. Norbert College's Week of Welcome, "Into the Streets" provides our incoming students with the opportunity to assist you with any needs you might have and also learn about the work that you do to meet the needs in our community. Past projects have included: painting, cleaning/organizing, weeding/mulching, sorting food/clothing, assembling kits, assisting with mailings and helping with events.

We will consider any project request that will be of help to you and your organization and that can be met by students serving in groups of 10-12. Students are available to serve either directly at your site or they can complete a project for your organization on-campus.

If you are interested in partnering with us, either as a service site at your agency and/or through an on-campus project please register by July 10, 2015. Event details and registration can be accessed at: <http://goo.gl/forms/JEvGurKJVZ>

Contact Susan Angoli at 403-3374 for additional information.
