Every Wisconsinite needs access to clean, safe water, no matter whether it's for drinking in our homes and schools, for our crops or livestock, or our natural waters for hunting, fishing, and outdoor recreation.

MADISON — Gov. Tony Evers today delivered the Democratic Radio Address on his historic budget investment to address PFAS contamination statewide. The 2023-25 biennial budget builds upon the governor's work over the past four years to ensure Wisconsinites have access to clean water and includes one of the first meaningful investments by Republican legislators to address PFAS contamination statewide. More information can be found [here](#).

Hey there. Governor Tony Evers here.

Every Wisconsinite deserves access to clean, safe water—free of lead, PFAS, and other contaminants that have long been known to harm our kids, families, farmers, communities, and industries across our state.
