MILWAUKEE - [This week we have a special report](#) where Robert interviews two Wisconsin elected officials who are demonstrating the courage to lead. First, we have an interview with Congressman Mark Pocan to discuss his thoughtful and nuanced stance on the Gaza War that defends the humanity and rights of both Israelis and Palestinians, opposes collective punishment, and recognizes the magnitude of the crimes committed by Hamas on October 7. Robert talks with Mark about the situation on the ground, what is needed to preserve human life and to finally land a permanent political settlement of the conflict.

Second, we interview State Senator Chris Larson, who has fought for months to get a better deal for the public from the Milwaukee Brewers. The one sided half billion dollar subsidy passed the Senate after a massive full court lobbying campaign, but not without a fight.
