MADISON - Wisconsinites have a celebrated history of progressivism. We value civic engagement and activism. We believe in the power of regular people and government's role in improving and protecting the lives of citizens.

But after six years under Governor Walker's failed leadership, many of the values Wisconsinites hold dear are being eroded and undermined.

Today we want you to tell us which of Governor Walker's policies you think are the most harmful to Wisconsinites.

Was it his attempts to...

1. Rollback worker protections
2. Make it more difficult to vote
3. Infringe on a woman's right to make her own healthcare decisions
4. Cut funding from our public schools and universities
5. Weaken government accountability measures
6. Other
7. All of the above

It's no secret that Governor Walker's drastic departure from Wisconsin's progressive traditions has negatively impacted people across our state. But if we're going to return to our roots and fight back against his extreme right-wing agenda, we need you to speak out.

[Make sure you answer our quick survey and let us know which of Governor Walker's policies affected you the most.](#)

Thank you for taking the time to fill out our survey.
