U.S. Senate hopeful says Foxconn deal is proof Republicans are listening.

MADISON, WI - Senate Assistant Majority Leader **Leah Vukmir**, R-Brookfield, issued the following statement Tuesday upon passage of the Foxconn bill in the state Senate:

“Wisconsinites have been calling on their elected officials to listen to them and put their interests first. The Foxconn deal is proof that we are listening, and we are — once again — getting things done.

“This will allow Wisconsin to lead the way and have quality, good-paying jobs for our workers and families for years to come. As technology evolves, we have heard from people who are afraid of what that means for their industries. Our action today will ensure that manufacturing continues to play an important role in Wisconsin’s economy.

"I am thrilled about what this investment means for our state and the significant ripple effects it will have for Wisconsin business. It goes without saying that Foxconn would not be coming to Wisconsin if it weren't for the bold reforms that Republicans have enacted over the past few years. Real leaders produce results, and we are seeing those results today.

"I thank President Trump, Speaker Ryan, Gov. Walker, and my colleagues in the state Capitol for working together to make this possible."
