

"Judges, Billionaires, and Pandemic Chaos" Battleground Wisconsin Podcast

Written by Citizen Action of Wisconsin, Matt Brusky
Friday, 03 July 2020 08:50 -

WISCONSIN - The panel digs into the racist federal appeals court ruling restricting Wisconsin early voting, and risking a dangerous replay of the infamous pandemic primary. Citizen Action is a lead plaintiff in the case. We discuss a new report co-released by Citizen Action of Wisconsin on how 8 Wisconsin billionaires have made an economic killing from the pandemic.

The pandemic continues to accelerate, confounding Donald Trump and the GOP by refusing to go away on its own. We point out some of the hotspots and controversies around the Badger State. We look at the rising pressure for Congress and the President to extend coronavirus economic relief, and to make bold new investments in publicly-subsidized jobs and a green transition. We report back on a major news event Citizen Action led in La Crosse this week to put pressure on the feds to act. Finally, we look at the latest Wisconsin racial justice protest developments, and unveil the latest round of Citizen Action legislative endorsements.
