OSHKOSH - Assembly Democratic Leader Gordon Hintz (D-Oshkosh) released the following statement in response to the news that more than 1 million Wisconsinites have been fully vaccinated against COVID-19:

“The news that one million Wisconsinites are now fully vaccinated against COVID-19 is remarkable. I applaud Governor Evers, state and local public health officials, Wisconsin’s vaccinators, and all of the community partners across the state who are working so hard to protect the health and safety of the people of Wisconsin.

“As we continue moving forward, I encourage every Wisconsinite who can get vaccinated against COVID-19 to do so as soon as they are eligible. All three COVID-19 vaccines were developed based on decades of research and went through rigorous safety testing, so we know they are safe and effective. By getting vaccinated, we can help protect the vulnerable members of our community and get back to our Wisconsin way of life.”
