MADISON - Stephanie Bloomingdale, President of the Wisconsin AFL-CIO, released the following statement endorsing Tony Evers for Wisconsin Governor in the 2022 election:

“Governor Evers understands the critical role strong unions and collective bargaining play in a just and healthy economy. As Governor, Tony Evers has supported workers by taking action to combat worker misclassification and payroll fraud. He has worked to end tax breaks for companies who ship jobs out of state, protect safe licensing standards for workers, and stop the rollback of child labor law protections. Governor Evers has consistently put forth state budgets that invest in Wisconsin, boost job growth, and lay the foundation for a better future for all. Governor Evers has a strong record of investing in infrastructure, funding our schools, and protecting democracy.

Governor Evers has stood with and fought for the working people of Wisconsin since day one of his administration. We look forward to continuing to work with the Evers Administration to support working families in Wisconsin with strong unions, safe jobs, and economic opportunity for all.”
