MILWAUKEE - Did you see Matt's announcement yesterday? I am proud to be working with Matt to get Wisconsin moving forward again.

But before he even announced that he will challenge Scott Walker next year, Walker's machine was in full attack mode against Matt. The Wisconsin GOP sent trackers to our events, put up a phony website with Matt's name, and unloaded negative research on the newspapers.

They're not messing around. Matt is going to need your support early and often to take on the Walker machine.

With your support, we'll have a governor who focuses on jobs, health care, schools, and roads - not on political gamesmanship.

Thank you for your support!
