MADISON - Instead of acting to reduce gun violence, Republicans want to give guns to teachers. As a lifelong educator, I can say without any hesitation that I'd rather go to jail than arm teachers in our schools.

More guns will increase the danger for our kids, not reduce it.

That's why I'm demanding Governor Walker reject more guns in schools and invest $50 million to provide training to reduce school violence and hire both qualified school counselors and security guards.

I can't do it alone, though, Friends. I need you to click here and join me to demand that Walker reject arming teachers.
