

Mental health Outpatient Therapist - Child Specialist

Written by American Foundation of Counseling Services
Friday, 09 October 2015 12:36 -

GREEN BAY - Due to program expansion, the American Foundation of Counseling Services is looking to add a full-time state licensed Masters level therapist to our clinical team.

Ideal candidates would have a minimum of three years of providing outpatient therapy working with children ages 3-10 years old, and will include group therapy.

It is essential to have a strong ability to coordinate services with schools and other community professionals, and have a willingness to develop skills in integrating clients' faith and spiritual perspectives into their therapy.

We have an excellent work environment, competitive compensation package, and a strong commitment to teamwork and mission.

Send resumes to:

Jill Beck
Director of Operations

American Foundation of Counseling Services, 130 E. Walnut, Green Bay, WI 54301
