

Nygren Wrong on State Budget

State Senator Dave Hansen of Green Bay responds to Rep. John Nygren's column on the State Budget in the Marinette Eagle Herald.

GREEN BAY, WI - To hear Rep. Nygren tell it you would think Governor Evers' budget should be dismissed because it isn't Republican enough. In truth Governor Evers' budget is a responsible budget, moderate in its approach and reasonable in its effort to work for all of the people, not just corporations and the wealthy.

Under Walker and the Republicans, the state budget grew by leaps and bounds. Yet we saw embarrassingly little progress on fixing our roads, lowering health insurance costs, or dealing with the public school funding crisis. Despite controlling all branches of state government, Republicans also failed to deliver on Walker's promise to create 250,000 jobs.
