MADISON - Senator Jon Erpenbach and Representative Chris Taylor will unveil their medical marijuana proposal and a statewide referendum bill during a press conference on Monday February 6th.

Speakers include; Senator Jon Erpenbach, Representative Chris Taylor, Dr. David Olive a local doctor, and Steve Acheson, founder, High Ground Veterans Advocacy.

Wisconsin could join the 28 states that allow seriously ill patients access to medical marijuana. As Wisconsin strives to battle opioid abuse in our communities, medical marijuana as an alternative should be on the table in this Legislature.
