MADISON - Donald Trump showed his true colors Thursday night. Even as Joe Biden was on the brink of winning the election, Trump kept up his effort to discredit that victory. To say the least, this was not normal or acceptable behavior, as I wrote about here:

Here in Wisconsin, one result you might not have seen is the success of all the non-binding referendums to ban gerrymandering. Here's that good news:

[14 Referendums to Ban Gerrymandering Pass in Wisconsin](#)

And here's an important non-election story that you might have missed: A judge threw out the so-called "Marsy's Law" amendment to our state constitution. And that's a good thing, as I noted here:

Well, it's been quite a week! And I hope you're able to finally get some rest after the election drama that we all just watched.

Best,
