

“Vaccinating the pandemic” Battleground Wisconsin Podcast

Written by Citizen Action of Wisconsin, Matt Brusky

Friday, 09 July 2021 16:13 - Last Updated Friday, 09 July 2021 16:18

MILWAUKEE - We continue to discuss the fundamental failings of the Legislature’s State Budget, which at the time of recording, was awaiting Gov. Evers’ action. We look at the latest vaccination rates in Wisconsin and remind listeners that Wisconsin still has low rates of vaccination in many areas and demographics that must be addressed if we are going to put the pandemic beyond us. We educate our listeners about the new federal child tax credit and its importance in reducing poverty and stimulating the economy in every community and discuss Senator QAnon Ron Johnson calling climate change science Bull**it. We review a Wisconsin Examiner story about the Kenosha Police’s friendly attitude towards armed militias during the Jacob Blake protests and how Republicans are trying to make “law and order” the top issue in midterm elections.
