MADISON - If you're concerned about the rigging of our voting district maps yet again by the Legislature, then I urge you to come to the State Capitol on Thursday, Oct. 28.

We're having a press conference on the first floor (not ground floor) of the Capitol Rotunda at 8:30 a.m., and then the joint committee public hearing starts at 9:00 a.m. in Room 412E.

We hope you can attend the press conference and the hearing.

You can testify yourself if you'd like, but plan to keep testimony to 2-3 minutes. We ask that you [RSVP here](#) so the Wisconsin Fair Maps Coalition can plan for and track testimony--we are already gearing up for an overflow room. Whether or not you choose to testify, you should fill out a hearing slip when you get there and register as opposed. Volunteers will be available to assist.

The bills are **SB621/AB624** for the Legislature's two maps (Senate and Assembly).

And the bills for the Congressional maps are **SB622/AB625**.

All three maps would essentially cement in place the hyper-partisan, uncompetitive maps that we've been suffering under since 2011 for another decade! **You can view the maps [here](#).**

If you cannot make the press conference or the hearing, please email your legislators and urge them to vote no on these bills. [View an email directory for Assembly representatives and Senators here](#)

You can watch yesterday's [Fair Maps Briefing](#) video on Facebook to learn more about preparations for the hearing, including COVID protocols at the State Capitol. The hearing will be live streamed and recorded on [WisconsinEye.com](#)

Call to Action: Thursday!
