MILWAUKEE - We welcome Courtney Hayward and Tanya Atkinson from Planned Parenthood Advocates of Wisconsin to the show to talk about the impending threat to reproductive healthcare in Wisconsin. In addition to the looming threat to Roe v. Wade by a lawless right-wing Supreme Court, the State Legislature introduced a Texas style ban, which could end reproductive freedom even if Roe is not overturned. Next, Ben Wilson, Citizen Action Driftless Coop Organizer, joins us to urge you to attend the virtual, In The Wash: A Virtual Workshop About Wisconsin Water Quality, where you can learn how to help protect Wisconsin water. We discuss Republican state legislative attacks on BadgerCare and public education, Robert raises concerns about an anti-Asian hate bill in the legislature targeting the UW System, and we shout out state Sen. Jeff Smith for speaking truth telecom corporate conspiracy against universal broadband in Wisconsin.
