MILWAUKEE, WI - We debrief Citizen Action's Brew Fest featuring Mandela Barnes and great beverages. Thanks to everyone who attended, if you couldn't we would love your donation in support. We review the significant news that Sen. Ron Johnson tried to transmit Wisconsin's fake electoral votes to Vice President Mike Pence on January 6th and his pathetic response when confronted by the Capitol media which is garnering national shame. We discuss the new MU Law Poll which finds Mandela Barnes is leading the U.S. Senate democratic primary and in the general election and Democrats are surprisingly strong given the terrible national headwinds Democrats face this fall.

We take a look at what authoritarian conservative rule looks like this week as we wait for the U.S. Supreme Court's decision on Roe v Wade. In Madison, Legislative Republicans gavel the rights of Wisconsin women back to 1849, Kenosha County Board has Sheriff tackle, handcuff, and arrest for speaking at a public meeting, and a MKE exurban school district rejects a book on Japanese internment as not balanced enough.
