

MADISON - If you've got an absentee ballot, it's too late to safely put it in the mail.

The best thing to do it is to deliver it to your clerk's office this week, or certainly by Election Day next Tuesday.

I just delivered mine today!

And if you're a voter with a disability, please remember that you have the right to get assistance in the delivery of your absentee ballot.

For everyone voting with an absentee ballot, make sure you sign your name and fill in the date, and make sure that your witness signs the form and fills in their address completely.

## **Don't Mail Your Absentee Ballot**
