Madison – March 12, 2024 – Black and Brown Womyn Power Coalition, End Domestic Abuse Wisconsin, and the Wisconsin Coalition Against Sexual Assault applaud the Wisconsin State Senate for passing legislation that increases funding for sexual assault and domestic abuse services. With the Assembly having unanimously passed AB940 last month, the coalitions have expressed appreciation for the Legislature recognizing the importance of victim services in Wisconsin with another unanimous vote in the Senate.

This comes at a critical time for programs in Wisconsin who are facing a devastating 70% reduction in Victims of Crime Act (VOCA) funding in October. The consequences of this reduction in federal funding could force programs to lay off staff, reduce services, and/or shut their doors. The impact would fall hardest on the smallest programs, including those serving Black, Indigenous, and Other People of Color communities as well as those in rural and low-income communities. Potentially thousands of victims statewide could lose access to lifesaving and life-sustaining child abuse, domestic violence, sexual assault, trafficking, and other victim services. Without access to these critical services, the real-time impact will not only be felt by individuals and families but will also ripple through communities statewide.

The following has been offered as a joint statement from the three anti-violence coalitions:

“We want to thank the Wisconsin State Legislature for stepping in to offset the catastrophic impact of a 70% cut to services. We would also like to thank Senators James and Agard, and Representatives Snyder and Conley, along with the long list of bipartisan co-sponsors for their advocacy on behalf of survivors. We now call on Governor Evers to sign this legislation as quickly as possible.”
