our state to his highest political contributors have put Wisconsin in jeopardy. We simply cannot afford another four years of Walker as Governor. My plans create good jobs in science, technology, manufacturing, and agriculture and spur more new business starts and more small, medium and large business growth by rewarding success. My plans leverage the best ideas no matter where they come from and make life in our state better for everyone. Change is necessary and good. I'm the change candidate who will make good things happen for all of the people of Wisconsin," concluded Gronik.
