It doesn't matter if your area is red or blue, families will benefit, but every single Republican in Congress is opposed.

Madison, Wis. -- Hundreds of thousands of Wisconsin families continue to benefit from President Biden's American Rescue Plan, including Wisconsinites in Republican-led congressional districts whose representatives voted against the lifesaving economic relief.

A staple of the American Rescue Plan is the expanded Child Tax Credit, which provides additional relief of up to \$1,600 per child to the families of 1,159,000 Wisconsin children -- and is expected to lift 46,000 children out of poverty. This middle-class tax cut was opposed by every single Republican in Congress but, thanks to Democrats, Wisconsinites in every single district are seeing relief from the middle-class tax cuts.
